- Python
- Django
- Django REST Framework
- FastAPI

Databases:

- MySQL
- PostgreSQL

Tools:

- Git & GitHub
- Postman
- GitHub Copilot
- Cursor AI
- VS Code

Deployment:

- PythonAnywhere
- Railway
- Vercel

Another Skills:

- Data Structures & Algorithms
- Problem Solving,
- Team Collaboration

🎓 EDUCATION

BS Computer Science

University of Baltistan
2022 - 2025

🌐 LANGUAGES

- English
- Urdu
- Balti

👤 PROFESSIONAL SUMMARY

Computer Science graduate and Full Stack Developer with practical experience in building web applications using Python, Django, FastAPI, Next.js, React and SQL databases. I have worked on real-world projects, REST APIs, databases, and responsive websites. I enjoy solving problems, learning new technologies, and building reliable and user-friendly web applications.

📁 WORK EXPERIENCE

Full Stack Developer

4xCode Software House | Lahore, Pakistan

- Develop and maintain web applications for different UK-based clients using Python, Django, FastAPI, Next.js, and React.js.
- Build and integrate backend REST APIs.
- Develop responsive frontend pages React.js and Next.js.
- Fix bugs, improve application performance, and contribute to complete full-stack features from backend to frontend.

🔗 PROJECTS

Vogue Fix My Motor (Next.js | Django | PostgreSQL)

- Built responsive Next.js applications from Figma designs..
- Built the Django REST API for the blog management system.
- Integrated POST APIs for inquiries using Fetch API.
- Successfully delivered a production-ready website for a UK automotive business.
- <https://voguefixmymotor.co.uk>

Range Rover Repairs (Next.js)

- Converted Figma designs into a responsive Next.js website.
- Integrated blogs and contact form APIs.
- Contributed to delivering a production-ready website for a UK automotive business under Vogue Technics.
- <https://rangeroverrepairs-test-development.vercel.app>

Sulli Shopping Centre (FYP) (Django | Python | SQL | JazzCash)

- Developed a complete Django e-commerce platform with product variants, parent/child categories, search, filtering, reviews, and ratings.
- Implemented OTP and Google authentication, order management, dynamic pricing, and location-based delivery charges.
- Integrated JazzCash payments and email notifications, with delivery and payment charges calculated based on location and order details.
- Built a permission-based admin dashboard for managing products, orders, employees, and access permissions,
